Maddox -- Reproducing labor: colonial government regulation of African women's reproductive lives / Meredith Turshen -- African population: projections, 1850-1960 / Patrick Manning.

Sommario/riassunto

The Demographics of Empire is a collection of essays examining the multifaceted nature of the colonial science of demography in the last two centuries. The contributing scholars of Africa and the British and French empires focus on three questions: How have historians, demographers, and other social scientists understood colonial populations? What were the demographic realities of African societies and how did they affect colonial systems of power? Finally, how did demographic theories developed in Europe shape policies and administrative structures in the colonies? The essays approach the su
