Note generali	"This book is based on the work of the research project The Oath in Archaic and Classical Greece, funded by the Leverhulme Trust ..., which at the University of Nottingham, created a database of nearly four thousand references to oaths and swearing in Greek texts" -- Preface.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	pt. 1. Oaths in the polis -- pt. 2. Oaths and interstate relations.
Sommario/riassunto	The oath was an institution of fundamental importance across a wide range of social interactions throughout the ancient Greek world, making a crucial contribution to social stability and harmony; yet there has been no comprehensive, dedicated scholarly study of the subject for over a century. This volume of a two-volume study explores how oaths functioned in the working of the Greek city-state (polis) and in relations between different states as well as between Greeks and non-Greeks.
