| 1. Record Nr. | UNINA9910815640003321 |
| Titolo | Attachment theory and research : a reader // edited by Tommie Forslund, Robbie Duschinsky |
| Pubbl/distr/stampa | Hoboken, New Jersey ; ; Chichester, West Sussex : , : Wiley/Blackwell, , [2021] ©2021 |
| ISBN | 1-119-65790-3 1-119-65789-X |
| Descrizione fisica | 1 online resource (vi, 276 pages) |
| Disciplina | 155.92 |
| Soggetti | Attachment behavior |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Introduction / Tommie Forslund and Robbie Duschinsky -- 1. Separation anxiety / John Bowlby -- 2. Anxiety, stress, and homeostasis / John Bowlby -- 3. Attachment / Mary D.Salter Ainsworth -- 4. Love as attachment: the integration of three behavioral systems / Phillip R. Shaver, Cindy Hazan, and Donna Bradshaw -- 5. Relationships, self, and individual adaptation / L. Alan Sroufe -- 6. Disorganized/Disoriented infant behavior in the strange situation, lapses in the monitoring of reasoning and discourse during the parent's adult attachment interview, and dissociative states/ M. Main and E. Hesse -- 7. The prototype hypothesis and the origins of attachment working models: adult relationships with parents and romantic partners / Gretchen Owens, Judith A. Crowell, Helen Pan, Dominique Treboux, Elizabeth O'Connor, and Everett Waters -- 8. Dynamics of romantic love: comments, questions, and future directions / Phillip R. Shaver -- 9. Integrating temperament and attachment: the differential susceptibility paradigm / Marinus H. van IJzendoorn and Marian J. Bakermans-Kranenburg -- 10. Annual research review: attachment disorders in early childhood: clinical presentation, causes, correlates, and treatment / Charles H. Zeanah and Mary Margaret Gleason -- 11. Attachment disorders versus more common problems in looked after and adopted children: comparing community and expert assessments / |

Matt Woolgar and Emma Baldock -- 12. Attachment in the early life course: meta-analytic evidence for its role in socioemotional development / Ashley M. Groh, R.M. Pasco Fearon, Marinus H. van IJzendoorn, Marian J. Bakermans-Kranenburg, and Glenn I. Roisman -- 13. Attachment and biobehavioral catch-up: addressing the needs of infants and toddlers exposed to inadequate or problematic caregiving / Mary Dozier and Kristin Bernard -- 14. Children's multiple attachment relationships and representations in different family contexts / Fabien Bacro, Tommie Forslund, and Pehr Granqvist -- 15. New correlates of disorganization from a West-African dataset, and shared rhythmic touch as a hidden pathway to infant attachment security / Mary McMahan True.

Sommario/riassunto

As interest in attachment theory continues to grow, misconceptions of the theory are becoming increasingly common. Important texts on major theoretical and empirical contributions are often too extensive for non-specialist readers or not readily available to clinicians. Designed to address a significant gap in literature, *Attachment Theory and Research: A Reader* presents a carefully curated selection of book chapters and journal articles on the subject--complemented by previously unpublished material by the founder of the theory. This valuable new resource provides practitioners, students, policymakers, and general readers an accessible and up-to-date view of the concepts, development, and diversity of attachment theory. The Reader comprises 15 succinct chapters by many of the most influential researchers in the theory, covering the basis of attachment theory and the current state of the field. The book brings together a wide range of works, many of which challenge common assumptions and offer intriguing new insights on attachment theory and research. Topics include psychoanalytic theories of separation anxiety, concepts of anxiety, stress, and homeostasis, the origins of disorganized attachment, cultural differences in caregiving practices, reactive attachment disorder (RAD) and disinhibited social engagement disorder (DSED), the future prospects of attachment theory, and more.--
