Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"In this collective study, the settlement patterns of the last five centuries in Central Western Mexico, language distribution, ritual representation of territoriality, processes of collective identity, and/or the forms of participation and resistance during different phases of Mexican state formation all combine to raise the question of whether the village community constitutes a unique level of the Indo-Mexican experience."
