Sommario/riassunto	How did Benito Mussolini come to fascism? Standard accounts of the dictator have failed to explain satisfactorily the transition from his pre-World War I 'socialism' to his post-war fascism. This controversial new book is the first to examine closely Mussolini's political trajectory during the Great War as evidenced in his journalistic writings, speeches and war diary, as well as some previously unexamined archive material. The author argues that the 1914-18 conflict provided the catalyst for Mussolini to clarify his deep-rooted nationalist tendencies.
