Sommario/riassunto	Success. Job satisfaction. Leadership. How are these developed and nurtured in a nursing career? Can mentors make a difference? They can and do, according to this book---edited by two pioneering researchers in the field of nursing mentorship. Here they explore the conceptual and practical aspects of mentorship and what it means in nursing. They are joined by more than a hundred nurses, including nurse leaders such as Beverly Malone, Marla Salmon, and Joyce Fitzpatrick, who contribute stories, essays, and personal reflections on mentorship.
