Sommario/riassunto	What was the legacy of the so-called Italian Reformation? What contribution did Italian humanism make to European developments in irenicism and religious tolerance? In The Italian Reformation outside Italy , Giorgio Caravale uses previously unpublished documents to reconstruct the life and intellectual career of Francesco Pucci (1543-1597). Educated in Renaissance Florence, Pucci found his vocation as a prophet in France during the Wars of Religion and embarked on a long period of peregrination, stopping off in Paris, London, Basle, Antwerp, Krakow and Prague before being imprisoned, tried and sentenced to death by the Roman Inquisition three years before Giordano Bruno. His doctrines were judged to be heretical by all religious confessions and his political proposal was a spectacular failure. Caravale presents a rich

chapter of sixteenth-century European history whose main features are religious conflict, irenic tension, universalist aspirations and prophetic expectations.
