

1. Record Nr.	UNINA9910816010003321
Titolo	Philosophy and the sciences of exercise, health and sport : critical perspectives on research methods // edited by Mike McNamee
Pubbl/distr/stampa	London ; ; New York : , : Routledge , , 2005
ISBN	1-134-42143-5 9786610289721 0-415-30016-9 1-134-42144-3 0-203-50600-6 1-280-28972-4
Edizione	[1st ed.]
Descrizione fisica	xiii, 253 p. : ill
Classificazione	76.10
Altri autori (Persone)	McNameeM. J (Mike J.)
Disciplina	796/.01
Soggetti	Sports sciences - Research - Methodology Exercise - Research - Methodology Sports - Health aspects - Research - Methodology Exercise - Health aspects - Research - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	chapter 1 Positivism, Popper and Paradigms: An Introductory Essay in the Philosophy of Science -- chapter 2 Must Scientists Think Philosophically About Science? -- chapter 3 Can Physiology Be Both Popperian and Ethical? -- chapter 4 How Does a Foundational Myth Become Sacred Scientific Dogma?: The Case of A.V.Hill and the Amaerobiosis Controversy -- chapter 5 Why Doesn't Sports Psychology Consider Freud? -- chapter 6 Do Statistical Methods Replace Reasoning in Exercise Science Research? How to Avoid Statistics Becoming Merely a Solution in Search of a Problem -- chapter 7 What are the Limitations of Experimental and Theoretical Approaches in Sports Biomechanics? -- chapter 8 Can We Trust Rehydration Research? -- chapter 9 Is Sport and Exercise Science a Man's Game? -- chapter 10 Autoethnography: Self-indulgence or Rigorous Methodology? -- chapter 11 Is Investigative Sociology Just Investigative Journalism? -- chapter 12 Is Research with and on Students Ethically Defensible -- chapter 13

Obesity, Type 2 Diabetes Mellitus and the Metabolic Syndrome: What are the Choices for Prevention in the Twenty-first Century?.

Sommario/riassunto

Philosophy and the Sciences of Exercise, Health and Sport is a unique interdisciplinary study that calls on researchers in these disciplines to reflect more critically on the nature and aims of scientific enquiry. In doing so, the book questions the underlying assumptions and development of science itself. Written by a range of internationally respected philosophers, scientists and social scientists, each chapter addresses a key issue in research methodology. Questions asked by the authors include: Do natural and social scientists need to understand the philosophy of science? Are statistics misused in sport and exercise science research? Is sport science research gender-biased? How do external and commercial interests skew professional guidelines in health and sport research? Should scientists focus their attention on confirmation of theories, or on attempts to falsify them? Philosophy and the Sciences of Exercise, Health and Sport serves notice to exercise, health and sport researchers to think more philosophically about their subject and its scientific bases. It is essential reading for postgraduate researchers seeking to establish a sound theoretical foundation for their work.
