Sommario/riassunto

This volume represents a selection of 25 out of altogether 86 papers given at the Eighth International Conference for the History of the Language Sciences (ICHoLS VIII), which took place at the Ecole Normale Supérieure at Fontenay-aux-Roses, near Paris, in September 1999. This conference was marked by three new elements: the integration of the study of Amerindian languages into Western linguistics; a particular emphasis on the history of the teaching of (foreign) languages; and new information on the history of linguistics in Eastern Europe during the Soviet era.
