

1. Record Nr.	UNINA9910816213303321
Autore	White Bill
Titolo	Getting started with the McData Intrepid FICON director [[electronic resource] /] / IBM, International Technical Support Organization [Bill White, Wolfgang Fries, Manfred Lindenau]
Pubbl/distr/stampa	Poughkeepsie, NY, : IBM, International Technical Support Organization, 2003
Edizione	[1st ed.]
Descrizione fisica	1 online resource (104 p.)
Collana	IBM redbooks
Altri autori (Persone)	FriesWolfgang LindenauManfred
Disciplina	004.6/6
Soggetti	Fibre Channel (Standard) Computer input-output equipment Storage area networks (Computer networks)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. 87) and index.
Sommario/riassunto	This IBM Redbooks publication discusses how to install, tailor, and configure the McDATA Intrepid FICON Director, in conjunction with the FICON topologies supported by zSeries and 9672 Generation 5 and Generation 6 servers. It focuses on the hardware installation as well as the software definitions needed to provide connectivity for supported FICON environments. This book provides planning information and FICON Director setup information. Also included are helpful utilities for monitoring and managing the McDATA Intrepid FICON Director environment. This book is intended for system engineers, SAN administrators, and system programmers who will plan and install McDATA Intrepid FICON Directors. A good background in systems planning, hardware and cabling infrastructure planning, and zSeries I/O definitions (HCD or IOCP), as well as Fibre Channel or FICON Directors is assumed.
