Sommario/riassunto

In *The Right to Appeal in International Criminal Law* Dražan Djuki describes appeal proceedings in international criminal law and evaluates them against human rights benchmarks. While international criminal courts and tribunals mainly comply with these benchmarks, they have fallen short in certain important areas. Despite their importance to the legal process, appeal proceedings tend to receive limited attention. On the basis of benchmarks arising from international human rights law, Dražan Djuki systematically assesses the law and practice concerning appeal proceedings in international criminal law.
