

1. Record Nr.	UNINA9910816262303321
Titolo	Efficient preparations of fluorine compounds // edited by Herbert W. Roesky
Pubbl/distr/stampa	Hoboken, N.J., : Wiley, 2013
ISBN	1-118-40946-9 1-283-66495-X 1-118-40942-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (484 p.)
Classificazione	SCI013030
Altri autori (Persone)	RoeskyH. W
Disciplina	546/.7312
Soggetti	Fluorine compounds
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Machine generated contents note: Foreword Preface Contributors 1 Preparation of Elemental Fluorine Karl O. Sommario/riassunto

"This book brings together contributions written by leading researchers and covering a wide scope of fluorine chemistry. It is a comprehensive listing of methods for synthesizing fluorine compounds for a wide variety of compounds whereby the C-H bond is replaced by a C-F bond"--
