 Violent behaviour occurs in every society. It grows out of the social order and can therefore be understood only in a social context. This book examines an orderly and relatively tranguil society, a small Israeli town settled by new immigrants, which is run by public agencies who pour in their resources to maintain the inhabitants. Circumstances have made the town an egalitarian society. but also limit its members' economic opportunities. This society has produced its special combinations of violent behaviour. The analysis

extensively employs the 'case method' whic
