

1. Record Nr.	UNINA9910816382503321
Titolo	Multi-stakeholder platforms for integrated water management // edited by Jeroen Warner
Pubbl/distr/stampa	Aldershot, England ; ; Burlington, VT, : Ashgate, c2007
ISBN	1-315-59639-3 1-317-09316-X 1-281-09969-4 9786611099695 0-7546-8480-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (298 p.)
Collana	Ashgate studies in environmental policy and practice
Altri autori (Persone)	WarnerJeroen
Disciplina	363.6/10684
Soggetti	Water-supply - Management Integrated water development Water-supply - Management - International cooperation Sustainable development Environmental policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The beauty of the beast : multi-stakeholder participation for integrated catchment management / Jeroen Warner -- The nature of the beast : towards a comparative MSP typology / Jeroen Warner and Annemiek Verhallen -- Collaborative capital : a key to the successful practice of integrated water resources management / Nigel Watson -- Integrated catchment management and MSPs : pulling in different directions? / Bruce Mitchell -- Contrasting UK experiences with participatory approaches to integrated river basin management / Malcolm Newson -- Arhus convention in practice : access to information and decision-making in a pilot planning process for a Flemish river basin / Annemiek Verhallen -- The international Zwin Commission : the beauty of a mayfly? / Leo Santbergen -- Participating in watershed management : policy and practice in the Trahunco watershed, Argentinean Patagonia / Alejandra Moreyra and Jeroen Warner -- 'Yakunchik' : coming to agreement after violence in Peru / Maria Teresa Ore -- Multi-

stakeholder platforms for surface and groundwater management in the Lerma-Chapala basin, Mexico / Philippus Wester, Jaime Hoogesteger van Dijk and Hans Paters -- Less tension, limited decision : a multi-stakeholder platform to review a contested sanitation project in Tiquipaya, Bolivia / Nicolas Faysse, Vladimir Cossio, Franz Quiroz, Raul Ampuero and Bernardo Paz -- Multi-stakeholder dissonance in the South African water arena / Eliab Simpungwe, Pieter Waalewijn and Bert Raven -- Mekong region water-related MSPs : unfulfilled potential / John Dore -- Against the conventional wisdom : why sector reallocation of water and multi-stakeholder platforms do not take place in Uzbekistan / Kai Wegerich -- Unpacking participatory NRM : distinguishing resource capture from democratic governance / Bruce Currie-Alder -- Towards evaluating MSPs for integrated catchment management -- Annemiek Verhallen, Jeroen Warner and Leo Santbergen.

Sommario/riassunto

As they provide a negotiating space for a diversity of interests, Multi-Stakeholder Platforms (MSPs) are an increasingly popular mode of involving civil society in resource management decisions. Illustrated by a wide geographical range of case studies, this book focuses on water management to take a positive, if critical, look at this phenomenon.
