| 1. Record Nr. | UNINA9910816431603321 |
| Autore | Redman Barbara Klug |
| Titolo | Research misconduct policy in biomedicine : beyond the bad-apple approach // Barbara K. Redman |
| Pubbl/distr/stampa | Cambridge, Massachusetts : , : The MIT Press, , [2013] |
| ISBN | 0-262-31776-1 0-262-31775-3 |
| Descrizione fisica | 1 online resource (209 p.) |
| Collana | Basic bioethics |
| Disciplina | 610.72/4 |
| Soggetti | Medicine - Research - Corrupt practices Medical scientists - Professional ethics Medical research personnel - Professional ethics Biotechnology - Research |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Contents; Series Foreword; Introduction; 1 Has Something Important Happened to Scientific Ethics?; 2 Will Approaches from the Psychosocial and Organizational Sciences Improve Research Misconduct Regulation?; 3 What Combination of Regulatory Tools Will Minimize Research Misconduct?; 4 Are Current Publication Standards Protecting the Integrity of the Scientific Record?; 5 Lessons from Clinical Case Studies in Research Misconduct; 6 Research Misconduct Policy, Its Evolution and Culture of Morality; 7 The Unity of Moral Science; References; Index; Basic Bioethics |
| Sommario/riassunto | Federal regulations that govern research misconduct in biomedicine have not been able to prevent an ongoing series of high-profile cases of fabricating, falsifying, or plagiarizing scientific research. In this book, Barbara Redman looks critically at current research misconduct policy and proposes a new approach that emphasizes institutional context and improved oversight. |
