| | Sommario/riassunto | In a relatively short time, many European governments have been |

purposefully dropping the notion 'multicultural' or other references to cultural diversity in their policy vocabularies. More and more politicians and public intellectuals have criticized a perceived shift towards 'too much diversity'. This volume goes beyond the conventional approaches to the topic offering a careful examination of not only the social conditions and political questions surrounding multiculturalism but also the recent emergence of a 'backlash' against multicultural initiatives, programmes and infrastructures.</
