Higher Education Qualifications: Convergence and Divergence in Software Engineering and Nursing: Michaela Brockmann
Sommario/riassunto	For the free movement of labour across the European Union, establishing transparency and comparability of qualifications across

member states is vital. This book examines how qualifications, knowledge, skills and competences are understood in different national contexts and trans-nationally and reveals a complex picture of differences and similarities both within and between countries. Against the background of EU policy initiatives, and in particular the European Qualifications Framework, an important focus is on the prospects and difficulties of establishing cross-national recogniti
