

1. Record Nr.	UNINA9910816507403321
Autore	Fewtrell Lorna
Titolo	Lead : assessing the environmental burden of disease at national and local levels // Lorna Fewtrell, Rachel Kaufmann, Annette Pruss-Ustun
Pubbl/distr/stampa	[Geneva], : World Health Organization, 2003
ISBN	1-280-06058-1 9786610060580
Edizione	[1st ed.]
Descrizione fisica	1 online resource (73 p.)
Collana	Environmental burden of disease series ; ; no. 2
Altri autori (Persone)	Kaufmann Rachel Pruss-Ustun Annette
Soggetti	Lead poisoning Lead - Risk assessment Lead - Toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Intro -- TABLE OF CONTENTS -- Preface -- Affiliations and acknowledgements -- Summary -- 1. Background -- 2. Sources of lead and exposure pathways -- 3. Lead toxicity -- 4. Exposure-risk relationships -- 5. Exposure assessment -- 6. Estimating the disease burden -- 7. Uncertainties -- 8. Research needs and recommendations -- 9. Disease burden and policy -- References -- Annex 1 Country groupings for global assessment -- Annex 2 Measuring blood lead -- References -- Annex 3 Using exposure scenarios to inform policy actions -- References -- Annex 4 Estimating the global disease burden of environmental lead exposure -- References -- Annex 5 Calculation spreadsheet for lead.
