Climate Change as a Social Construct; 4.6. The History of Anthropogenic Climate Catastrophes 4.7. The Influence of Climate Changes on Society5. Zeppelin Manifesto on Climate Protection; 6. Summary and Prospects; Index
Sommario/riassunto	<i>Climate and Society</i> presents from a transdisciplinary view, climate and its changes, impact and perception. The history of climate and its different approaches over time - which are anthropocentric and more system-oriented, academic and application-driven - are reviewed, as are the possibilities of managing climate, in particular by steering the greenhouse gas emissions. Most importantly, the concepts of climate as a resource for societies are discussed and the emergence of climate non-constancy and its impact, studied. In essence, this book

provides an absorbing account of the cultura
