

1. Record Nr.	UNINA9910816705903321
Titolo	Opportunities in applied environmental research and development // Committee on Opportunities in Applied Environmental Research and Development, Board on Environmental Studies and Toxicology, Commission on Geosciences, Environment, and Resources, National Research Council
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1991
ISBN	1-280-21154-7 9786610211548 0-309-57543-5 0-585-14410-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xii, 173 pages) : illustrations
Altri autori (Persone)	AndrewsRichard N. L
Soggetti	Environmental protection - Research Pollution - Research - United States Environmental policy - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Committee chairman: Richard N.L. Andrews. Project supported by the Environmental Protection Agency, Agency for Toxic Substances and Disease Registry and the National Institute of Environmental Health Sciences.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	1 Front Matter; 2 Introduction; 3 General Conclusions and Recommendations; 4 Appendix A: Waste Reduction: Research Needs in Applied Social Sciences; 5 Appendix B: Measuring Change in Ecosystems: Research and Monitoring Strategies; 6 Appendix C: Research to Improve Predictions of Long-Term Chemical Toxicity; 7 Appendix D: Research Needs in Anticipation of Future Environmental Problems; 8 Appendix E: Commission on Physical Sciences, Mathematics, and Resources
Sommario/riassunto	Reviews four areas of opportunity in applied environmental research and development: waste reduction, ecosystem and landscape change, anticipatory research, and long-term chemical toxicity. This book presents the consensus of workshops held to explore these four areas.
