

1. Record Nr.	UNINA9910816755003321
Titolo	Beyond naturalness : rethinking park and wilderness stewardship in an era of rapid change // edited by David N. Cole and Laurie Yung
Pubbl/distr/stampa	Washington, D.C., : Island Press, c2010
ISBN	1-59726-911-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (304 p.)
Altri autori (Persone)	ColeDavid N YungLaurie <1969->
Disciplina	333.78
Soggetti	Protected areas - United States - Management Ecosystem management - United States Nature conservation - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. The changing context of park and wilderness stewardship -- pt. 2. Approaches to guide protected area conservation -- pt. 3. Management strategies for implementing new approaches.
Sommario/riassunto	The central concept guiding the management of parks and wilderness has been "naturalness"-to a large extent the explicit purpose in establishing these special areas was to keep them in their "natural" state. But what does that mean, particularly as the effects of stressors such as habitat fragmentation, altered disturbance regimes, invasive species, and climate change increase? Beyond Naturalness brings together leading scientists and policymakers to explore the concept of naturalness, its varied meanings, and the extent to which it provides adequate guidance regarding where, when, and how man
