

1. Record Nr.	UNINA9910816769203321
Titolo	Attachment theory in clinical work with children : bridging the gap between research and practice // edited by David Oppenheim, Douglas F. Goldsmith
Pubbl/distr/stampa	New York, : Guilford Press, c2007
ISBN	1-281-12370-6 9786611123703 1-59385-657-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (272 p.)
Altri autori (Persone)	OppenheimDavid <1958-> GoldsmithDouglas F
Disciplina	618.92/8588
Soggetti	Attachment behavior in children Attachment disorder in children Child psychotherapy Parent and child
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Constructing a relationship formulation for mother and child : clinical application of the working model of the child interview / Charles H. Zeanah -- Keeping the inner world of the child in mind : using the Insightfulness assessment with mothers in a therapeutic preschool / Nina Koren-Karie, David Oppenheim, and Douglas F. Goldsmith -- Intervening with maltreated children and their adoptive parents : identifying attachment-facilitating behavior / Miriam Steele ... [et al.] -- The role of caregiver commitment in foster care : insights from the "This is my baby" interview / Mary Dozier ... [et al.] -- Parental resolution of the child's diagnosis and the parent-child relationship : insights from the Reaction to diagnosis interview / David Oppenheim ... [et al.] -- Attachment and trauma : an integrated approach to treating young children exposed to family violence / Amy L. Busch and Alicia F. Lieberman -- The circle of security project : a case study--"It hurts to give that which you did not receive" / Bert Powell ... [et al.] -- Challenging children's negative internal working models : utilizing

attachment-based treatment strategies in a therapeutic preschool / Douglas F. Goldsmith -- Disorganized mother, disorganized child : the mentalization of affective dysregulation and therapeutic change / Arietta Slade.

Sommario/riassunto

Attachment research has tremendous potential for helping clinicians understand what happens when parent-child bonds are disrupted, and what can be done to help. Yet there remains a large gap between theory and practice in this area. This book reviews what is known about attachment and translates it into practical guidelines for therapeutic work. Leading scientist-practitioners present innovative strategies for assessing and intervening in parent-child relationship problems; helping young children recover from maltreatment or trauma; and promoting healthy development in adoptive and fos
