Disorders of Social Drives; 6. Disorders of Emotions; 7. Disorders of Cognition; 8. Overview and Implications; References; Author Index; Subject Index
Sommario/riassunto	The recent publication of a new edition of the American Diagnostic and Statistical manual (DSM-5) highlighted the two contrary viewpoints that exist within the field of mental health. There are those who value such classification systems, seeing each revision of the DSM as a fine-tuning exercise, and there are those who are strongly opposed, seeing such exercises as fundamentally flawed. 'Madness Cracked' provides a fascinating introduction to the history of psychiatry and clinical psychology, looking at how these areas have attempted to classify the various problems and disorders that their p
