

1. Record Nr.	UNINA9910816918303321
Titolo	From semiclassical semiconductors to novel spintronic device // editor, Halyna Khlyap
Pubbl/distr/stampa	Sharjah, U.A.E. : , : Bentham Science Publishers, , [2013]
ISBN	1-60805-145-5
Descrizione fisica	1 online resource (195 p.)
Collana	From Semi Classical Semiconductors to Novel Spintronic Devices
Altri autori (Persone)	KhlyapHalyna
Disciplina	004.5/3
Soggetti	Nanotechnology Semiconductors
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Title; EUL; Contents; Foreword; Preface; List of Contributors; Chapter 01; Chapter 02; Chapter 03; Chapter 04; Index
Sommario/riassunto	""Dramatic developments in developing semiconductor device technology and nanotechnologies over the last decades has placed increasing demands on the fabrication and design of new electronic devices, It is now necessary to implement nanoscale gate geometries to achieve the highest performance standards in new devices. The need to understand and model the operation of nano-devices is, therefore, fundamental to future development and optimal design. Semiclassical Heterojunctions to Novel Spintronic Devices explains research related to new spintronic devices. This E-book: reports unique result
