

1. Record Nr.	UNINA9910816930203321
Titolo	Bioisosteres in medicinal chemistry / / edited by Nathan Brown
Pubbl/distr/stampa	Weinheim, Germany, : Wiley-VCH, 2012
ISBN	3-527-65432-1 1-280-77853-9 9786613688927 3-527-65430-5 3-527-65433-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (258 p.)
Collana	Methods and principles in medicinal chemistry ; v. 54
Altri autori (Persone)	BrownNathan
Disciplina	615.19
Soggetti	Pharmaceutical chemistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Principles -- pt. 2. Data -- pt. 3. Methods -- pt. 4. Applications.
Sommario/riassunto	Written with the practicing medicinal chemist in mind, this is the first modern handbook to systematically address the topic of bioisosterism. As such, it provides a ready reference on the principles and methods of bioisosteric replacement as a key tool in preclinical drug development. The first part provides an overview of bioisosterism, classical bioisosteres and typical molecular interactions that need to be considered, while the second part describes a number of molecular databases as sources of bioisosteric identification and rationalization. The third part covers the four
