#### Sommario/riassunto

Looking at knowledge transmission as a cultural feature, this book isolates and examines the individual factors that affect knowledge in the making and created uniquely Chinese cultures of knowledge. The volume is organized into four sections: Internode, Imperial Court, Agora, and Scholarly Arts. Each has a theoretical introduction, followed by two core contributions from experts in Chinese history. The section concludes with a 'reflection' by a historian of Western Technology who scrutinizes each sphere and identifies the points that reflect universal technological experience. The combination of broadly sketched theoretical introductions and detailed core contributions provides an unparalleled insight into pre-modern Chinese history from the Song to early Qing dynasty, revealing Chinese attitudes towards innovation and invention.

Sommario/riassunto	Although conventionally treated as separate, America's four wars in Asia were actually phases in a sustained U.S. bid for regional dominance, according to Michael H. Hunt and Steven I. Levine. This effort unfolded as an imperial project in which military power and the imposition of America's political will were crucial. Devoting equal attention to Asian and American perspectives, the authors follow the long arc of conflict across seventy-five years from the Philippines through Japan and Korea to Vietnam, tracing along the way American ambition, ascendance, and ultimate defeat. They show how th

Sommario/riassunto	In 1907, the city of Heredia became the epicenter of the most important religious conflict experienced by Costa Rica in the 20th century. A complaint that the theory of evolution was being taught in the Lyceum (i.e. secondary school) of that city, triggered an increasingly intense confrontation between the Catholic parishioners and the circle of young radical intellectuals articulating around the writer and educator Roberto Brenes Mesen. In the course of this process, Costa Rican society, to the alarm of the government of Cleto Gonzalez Viquez, was the scene of popular mobilizations in defense of the faith, excommunications and burning of impious texts, while Catholic morality was systematically questioned based on sexual abuse attributed to priests. For a moment, it seemed that the country had gone back in time, and that the ghosts of 1884 were present.
