1.	Record Nr.	UNINA9910817059303321
	Titolo	Bayesian methods in finance / / Svetlozar T. Rachev ... [et al.]
	Pubbl/distr/stampa	Hoboken, N.J., : Wiley, c2008
	ISBN	9786611217266
		9781119202141
		1119202140
		9781281217264
		1281217263
		9780470249246
		0470249242
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (351 p.)
	Collana	The Frank J. Fabozzi series
	Altri autori (Persone)	RachevS. T (Svetlozar Todorov)
	Disciplina	332
		332.01519542
	Soggetti	Finance - Mathematical models
		Bayesian statistical decision theory
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references (p. 298-309) and index.
	Nota di contenuto	Bayesian Methods in Finance; Contents; Preface; About the Authors; CHAPTER 1 Introduction; A FEW NOTES ON NOTATION; OVERVIEW; CHAPTER 2 The Bayesian Paradigm; THE LIKELIHOOD FUNCTION; THE BAYES' THEOREM; SUMMARY; CHAPTER 3 Prior and Posterior Information, Predictive Inference; PRIOR INFORMATION; POSTERIOR INFERENCE; BAYESIAN PREDICTIVE INFERENCE; ILLUSTRATION: POSTERIOR TRADE-OFF AND THENORMAL MEAN PARAMETER; SUMMARY; APPENDIX: DEFINITIONS OF SOME UNIVARIATE AND MULTIVARIATE STATISTICAL DISTRIBUTIONS; CHAPTER 4 Bayesian Linear Regression Model; THE UNIVARIATE LINEAR REGRESSION MODEL THE MULTIVARIATE LINEAR REGRESSION MODELSUMMARY; CHAPTER 5 Bayesian Numerical Computation; MONTE CARLO INTEGRATION; ALGORITHMS FOR POSTERIOR SIMULATION; APPROXIMATION METHODS: LOGISTIC REGRESSION; SUMMARY; CHAPTER 6 Bayesian Framework for Portfolio Allocation; CLASSICAL PORTFOLIO SELECTION; BAYESIAN PORTFOLIO SELECTION; SHRINKAGE ESTIMATORS; UNEQUAL HISTORIES

Sommario/riassunto	Bayesian Methods in Finance provides a detailed overview of the theory of Bayesian methods and explains their real-world applications to financial modeling. While the principles and concepts explained throughout the book can be used in financial modeling and decision making in general, the authors focus on portfolio management and market risk management-since these are the areas in finance where Bayesian methods have had the greatest penetration to date.
