Sommario/riassunto	The study of teacher cognition - what teachers think, know and believe - and of its relationship to teachers' classroom practices has become a key theme in the field of language teaching and teacher education. This new in paperback volume provides a timely discussion of the research which now exists on language teacher cognition. The first part of the book considers what is known about the cognitions of pre-service and practicing teachers, and focuses specifically on teachers' cognitions in teaching grammar, reader and writing. The second part of the book evaluates a range of research methods
