Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Acknowledgments -- The transnationality of cities : concepts, dimensions and research fields: an introduction / Stefan Kratke, Kathrin Wildner, and Stephan Lanz -- Transnationality and the city / Nina Glick-Schiller -- Cities of the global south in the context of transnational urbanism and international development policies / Hans Harms -- Transnational planning : reconfiguring spaces and institutions / Clara Irazabal -- Conceptualizing transnational urban spaces : multicentered agency, placeless organizational logics, and the built environment / Christof Parnreiter -- Materializing the digital commodity : recording studios in transnational project networks of digital musical production / Michael Hoyler and Allan Watson -- Global capitalism and the informal economy : a methodological approach to

the complex incorporation of Mexican cities into the globalized markets / Sandra Alarcon -- The return of the local? : anglicization, transnationalism and religion in the global city / John Eade -- Small town transnationalism : socio-spatial dynamics of immigration to the heartland / Faranak Miraftab -- Challenging heteronomous power in a globalized world : insurgent spatial practices, "militant particularism", and multiscalarity / Marcelo Lopes de Souza -- Move from and not on the occult zone (where the people dwell) : -- An argument for the political priority of solidarity with popular (and largely situated) mobilization by the poor over transnational organization by civil society / Richard Pithouse -- Contributors -- Index.

Sommario/riassunto

The formation of transnational urban spaces is a relevant and challenging field of interdisciplinary research, which deserves much more debate in order to deepen our understanding of generating and restructuring urban spaces under conditions of contemporary globalisation processes. This edited collection reflects current studies on the relation of transnationalism and urbanism. Scholars from disciplines including Geography, Ethnography and Urban Planning discuss theoretical approaches, methodology and case studies on processes of the production of urban spaces through global economic value
