Muferi, and Quazi Shahabuddin -- Pro-poor growth in Vietnam: miracle or model? / Rainer Klump -- Ghana: the challenge of translating sustained growth into poverty reduction / Ernest Aryeetey and Andrew McKay -- Uganda's experience with operationalizing pro-poor growth, 1922 to 2003 / John A. Okidi ... [et al.] -- The success of pro-poor growth in rural and urban Tunisia / Mohamed Hedi Lahouel -- Human capital, inequality, and pro-poor growth in Brazil / Naercio Menezes-Filho and Ligia Vasconcellos.
Sommario/riassunto	Broad-based growth is critical for accelerating poverty reduction. But income inequality also affects the pace at which growth translates into gains for the poor. Despite the attention researchers have given to the relative roles of growth and inequality in reducing poverty, little is

known about how the microunderpinnings of growth strategies affect poor households' ability to participate in and profit from growth. Delivering on the Promise of Pro-Poor Growth contributes to the debate on how to accelerate poverty reduction by providing insights from eight countries that have been relatively
