Nota di contenuto

European Union developments and national social protection / Juho Saari and Jon Kvist -- Germany: moving towards Europe but putting national autonomy first / Milena Buchs and Karl Hinrichs -- The United Kingdom: more an economic than a social European / Julian Le Grand, Elias Mossialos, and Morgan Long -- France: defending our model / Bruno Palier and Luana Petrescu -- Italy: between indifference, exploitation and the construction of a national interest / Stefano Sacchi -- Poland: redefining social policies / Irena Woycicka and Maciej Grabowski -- Spain: starting from periphery, becoming centre / Ana Guillen -- The Czech Republic: tradition compatible with modernisation? / Martin Potucek -- Finland: towards more proactive policies / Juho Saari and Olli Kangas -- The Netherlands: social and economic normalisation in an era of European Union controversy / Anton Hemerijck and Peter Slegers -- Denmark: from foot dragging to pace setting in European Union social policy / Jon Kvist -- Greece: the quest for national welfare expansion through more social Europe / Theodoros Sakellaropoulos / The Europeanisation of social protection: domestic impacts and national responses / Jon Kvist and Juho Saari -- Seeking a new balance / Juho Saari and Kari Valimäki.

Sommario/riassunto

This collection focuses on the relationship between social care, community and citizenship, linking them in a way relevant to both policy and practice. While there is extensive research within each of these fields, until now there is a dearth of dialogue between them. In the current political context. With an emphasis on the development of locally based services and governance, this publication is particularly timely. Divided into four sections, it covers: key concepts, issues and relationships and draws on contrasting illustrations from England and Scotland; ethics of care and the theoretical and moral complexities to be thought through for both those receiving and those delivering care; practice based chapters on community capacity to care, black and minority ethnic care, anti-social behaviour, domestic violence, befriending, volunteering, dementia care and home care; and international comparisons and perspectives with chapters from Sweden, Germany and Japan. The book is aimed at a wide range of readers including: academics, principally teachers and researchers in social policy and social work; undergraduate and postgraduate students; practitioners, including community development workers, social workers, public health workers, mental health staff, practitioners employed on renewal, regeneration, social inclusion and community cohesion programmes and policy makers in central and local government, strategic health authorities and primary care trusts. It opens up discussions relevant for the next decade and beyond.

Sommario/riassunto	What effect did personality and circumstance have on US foreign policy during World War II? This incisive account of US envoys residing in the major belligerent countries - Japan, Germany, Italy, China, France, Great Britain, USSR - highlights the fascinating role played by such diplomats as Joseph Grew, William Dodd, William Bullitt, Joseph Kennedy and W. Averell Harriman. Between Hitler's 1933 ascent to power and the 1945 bombing of Nagasaki, US ambassadors sculpted formal policy - occasionally deliberately, other times inadvertently -

giving shape and meaning not always intended by Franklin D. Roosevelt or predicted by his principal advisors. From appeasement to the Holocaust and the onset of the Cold War, David Mayers examines the complicated interaction between policy, as conceived in Washington, and implementation on the ground in Europe and Asia. By so doing, he also sheds needed light on the fragility, ambiguities and enduring urgency of diplomacy and its crucial function in international politics.
