

1. Record Nr.	UNINA9910817391903321
Autore	Duffy Rosaleen
Titolo	Security and Conservation : The Politics of the Illegal Wildlife Trade // Rosaleen Duffy
Pubbl/distr/stampa	New Haven, CT : , : Yale University Press, , [2022] ©2022
ISBN	9780300265156 0300265158 0-300-26515-8 9780300230185 0300230184
Descrizione fisica	1 online resource (320 p.) : illustrations
Disciplina	364.13376
Soggetti	Wildlife trafficking NATURE / Animals / Wildlife
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 231-264) and index.
Nota di contenuto	Frontmatter --; CONTENTS --; Preface --; Acknowledgments --; List of Abbreviations --; 1 Conservation and Security Converge --; 2 Framings Matter --; 3 War for Biodiversity --; 4 Terrorism and Poaching --; 5 Surveillance, Intelligence, and Conservation --; 6 Security Technologies and Biodiversity Conservation --; 7 Military-Security-Conservation Nexus --; Epilogue --; Notes --; Bibliography --; Index. Frontmatter -- CONTENTS -- Preface -- Acknowledgments -- List of Abbreviations -- 1 Conservation and Security Converge -- 2 Framings Matter -- 3 War for Biodiversity -- 4 Terrorism and Poaching -- 5 Surveillance, Intelligence, and Conservation -- 6 Security Technologies and Biodiversity Conservation -- 7 Military-Security-Conservation Nexus -- Epilogue -- Notes -- Bibliography -- Index
Sommario/riassunto	An exploration of the scale, practical reality, and future implications of the growing integration of biodiversity conservation with global security concerns “There are few keener observers of international biodiversity conservation than Rosaleen Duffy. With a ferocity of purpose, she investigates the tenuous connection and nuances among

illegal wildlife trade, terrorism threats, and national security.”—Steven R. Brechin, Rutgers University, New Brunswick Debates regarding environmental security risks have generally focused on climate change and geopolitical water conflicts. Biodiversity conservation, however, is increasingly identified as a critical contributor to national and global security. The illegal wildlife trade is often articulated as a driver of biodiversity losses, and as a source of finance for organized crime networks, armed groups, and even terrorist networks. Conservationists, international organizations, and national governments have raised concerns about “convergence” of wildlife trafficking with other serious offenses, including theft, fraud, corruption, drugs and human trafficking, counterfeiting, firearms smuggling, and money laundering. In *Security and Conservation*, Rosaleen Duffy examines the scale, practical reality, and future implications of the growing integration of biodiversity conservation with global security concerns. Duffy takes a political ecology approach to develop a deeper understanding of how and why wildlife conservation turned toward security-oriented approaches to tackle the illegal wildlife trade.
