Nota di contenuto	Levi-Strauss, linguistics and structuralism -- Kinship as communication -- The illusion of totemism -- Myths without meaning -- Structuralism, shamanism, and material culture -- The structure of nostalgia -- Levi-Strauss and the study of religions.
Sommario/riassunto	This volume seeks to address a key gap in the burgeoning secondary literature about Levi-Strauss: his importance to the study of religions. This volume pays particular attention to Levi-Strauss' writings on totemism, myth and "la pensee sauvage" situating these writings both in terms of previous theories of religion and in terms of the wider influences that informed his work.
