

1. Record Nr.	UNINA9910817503403321
Titolo	Edward Teller lectures : lasers and inertial fusion energy // editors, Heinrich Hora, George H. Miley ; with a foreword by E.M. Campbell
Pubbl/distr/stampa	London, : Imperial College, 2005
ISBN	1-281-86694-6 9786611866945 1-86094-727-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (379 p.)
Altri autori (Persone)	HoraHeinrich <1931-> MileyGeorge H <1933-> (George Hunter)
Disciplina	539.764
Soggetti	Inertial confinement fusion Nuclear fusion
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Foreword by Edward Michael Campbell; Introductory Remarks to the "Edward Teller Lectures"; Occasional Addresses by Edward Teller at Conferences of Laser Interaction and Related Plasma Phenomena (LIRPP); LECTURES PRESENTED BY THE EDWARD TELLER MEDALISTS; AUTHOR INDEX; SUBJECT INDEX; Acknowledgment
Sommario/riassunto	How to achieve unlimited, safe, clean and low-cost energy by laser- or beam-driven inertial nuclear fusion has preoccupied all winners of the Edward Teller Medal since its inception in 1991. This book presents their findings, meeting discussions, and personal insights from Edward Teller himself. Expect discussion of important advances anticipated in the future such as multi-billion dollar fusion research projects (NIF), and new schemes such as the petawatt-picosecond laser-plasma interactions evoking new physics and coupling mechanisms. For the first time, laser technology of the new century i
