Descrizione fisica	1 online resource (148 pages)
Disciplina	937.01
Soggetti	Pottery, Prehistoric Potters Copper age
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Ceramic technology is a topic widely explored in archaeology, especially for its social inferences. This volume addresses the social aspects of production and the role of potters within prehistoric communities. The book focusses on the Copper Age when social complexity was incipient and ceramic production was not considered a formalised activity.
