Sommario/riassunto

As AAC use continues to flourish and new technology revolutionizes the field, tomorrow's service providers need current, authoritative information on AAC for children and adults with communication disorders. That's why David Beukelman and Pat Mirenda have revised and updated the bestselling *Augmentative and Alternative Communication*—the trusted, widely adopted graduate-level text on communication disorders and AAC. The foundational textbook for SLPs, OTs, PTs, teachers, and other professionals in clinical and educational settings, this fourth edition is a definitive introduction to AAC practice.
