

1. Record Nr.	UNINA9910817559803321
Titolo	Energy research at DOE : was it worth it? : energy efficiency and fossil research 1978 to 2000 // Committee on Benefits of DOE R&D on Energy Efficiency and Fossil Energy, Board on Energy and Environmental Systems, Division on Engineering and Physical Sciences, National Research Council
Pubbl/distr/stampa	Washington, D.C. ; ; [Great Britain], : National Academy Press, c2001
ISBN	0-309-17059-1 0-309-50296-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (241 p.)
Collana	The compass series
Disciplina	333.79160973
Soggetti	Energy consumption - Research - United States Fossil fuels - Research - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Cover -- Front Matter -- Acknowledgments -- Contents -- Tables and Figures -- Executive Summary -- 1 Introduction -- 2 Framework for the Study -- 3 Evaluation of the Energy Efficiency Programs -- 4 Evaluation of the Fossil Energy Programs -- 5 Overall Findings and Recommendations -- Appendixes -- A Biographical Sketches of Committee Members -- B Presentations and Committee Activities -- C Bibliography Relevant to DOE R&D -- D Policy, Congressional Mandates, R&D -- D Results, and Evaluations -- D Measuring the Benefits and Costs of the Department of Energy's Energy Efficiency and Fossil Energy R&D -- D Programs -- E Case Studies for the Energy Efficiency Program -- F Case Studies for the Fossil Energy Program -- G Glossary -- H Acronyms and Abbreviations.
