### Sommario/riassunto

This volume focuses on multilateralism in the 21st century and examines how, and how effectively, the EU delivers on its commitment to effective multilateralism. Presenting results generated by MERCURY, an EU research programme into multilateralism, this book addresses a central research question: does the EU deliver on its commitment to effective multilateralism? Globalisation has created powerful new incentives for states to cooperate and has generated renewed interest in multilateralism. While a large body of work exists on multilateralism as a concept, it continues to be ill-defined and poorly understood. This book sheds new light on 21st century multilateralism by exploring conceptual approaches as well as generating innovative, empirical knowledge on its practice.
