

1. Record Nr.	UNINA9910817586903321
Titolo	Cognition and crime : offender decision making and script analyses // edited by Benoit LeClerc and Richard Wortley
Pubbl/distr/stampa	Abingdon, Oxon : , : Routledge, , 2014
ISBN	1-138-92235-8 1-136-18534-8 0-203-08348-2 1-136-18535-6
Descrizione fisica	1 online resource (xxi, 261 pages) : illustrations
Collana	Crime Science Series ; ; 13
Disciplina	364.3
Soggetti	Criminal psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Cover ; Cognition and Crime; Title Page; Copyright Page; Table of Contents ; List of figures; List of tables; Notes on contributors; Foreword; Acknowledgments; List of abbreviations; 1 The Reasoning Criminal: twenty-five years on; 2 What are violent offenders thinking?; 3 How house burglars decide on targets: a computer-based scenario approach; 4 The risks and rewards of motor vehicle theft: implications for criminal persistence; 5 The rational choice perspective and the phenomenon of stalking: an examination of sex differences in behaviours, rationales, situational precipitators and feelings 6 Interpersonal scripts and victim reaction in child sexual abuse: a quantitative analysis of the offender-victim interchange 7 Drug dealing: Amsterdam's Red Light District; 8 Human trafficking for sexual exploitation in Italy; 9 Script analysis of corruption in public procurement; 10 Cigarette smuggling and terrorism financing: a script approach; 11 Script analysis of the transnational illegal market in endangered species: dream and reality; 12 New developments in script analysis for situational crime prevention: moving beyond offender scripts 13 Rational choice and offender decision making: lessons from the cognitive sciences Index

Sommario/riassunto

The rational choice perspective developed by Cornish and Clarke in 1986 provides criminologists with a valuable and practical framework for purposes of crime control and prevention. More than twenty-five years later, *Cognition and Crime* pushes the boundaries of this field of research by bringing together international leading (or emerging) researchers in this area of script analysis into a single volume for the first time. It also presents a series of original contributions on offender decision-making during crime and crime script analysis as well as offering a critical perspective o
