Sommario/riassunto	The Christian faith is comprehensive and diverse, so the question, what the centre is, can be asked. Different answers have been given, to which this book adds another. The venture of the Christian faith is missions, following Kenneth Scott Latourette's thesis that the Holy Spirit moves forward the history of the church by bringing in ever new revivals, which produce ever new organisations. Therefore missions are not the children of the churches, but of the revivals, and Africa was not evangelised by the European and American churches, but by the Europeans and American mission societies.
