Nota di contenuto	Introduction -- Telecommunications in the internet age : very high stakes -- Technological performance -- Financial, strategic, and political conduct of the ILECs -- The ILECs' competitors -- The policy system and alternatives in the United States : causes and implications -- Policy recommendations.
Sommario/riassunto	In the US, pressure has been building for faster and less expensive broadband data services. However, broadband services and prices have not kept pace either with demand or with progress in information technology. This title analyses the markets and policy issues underlying the broadband dilemma.
