Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This is an intimate portrait of Charlie Russell's philosophy of nature. Accompanied by stunning photography, the book is written in narrative form, the way Charlie spoke and shared his stories and knowledge with others. Each of the chapters describes some facet of Charlie's philosophy and experiences through the stories of individual bears and what they taught him: the meaning of trust, respect, attention, love, and much more.
