

1. Record Nr.	UNINA9910817772003321
Titolo	Acromegaly : diagnosis & treatment // editors, Ferdinand Roelfsema, Nienke R. Biermasz
Pubbl/distr/stampa	London : , : Future Medicine Ltd., , [2012] ©2012
ISBN	1-78084-159-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (163 p.)
Disciplina	616.4
Soggetti	Acromegaly - Diagnosis Acromegaly - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Title page; Copyright page; Contents; Foreword. Acromegaly: diagnosis and treatment; 1. History of acromegaly; 2. Pathology and pathogenesis of growth hormone-secreting pituitary adenomas; 3. Regulation of growth hormone secretion; 4. Clinical and laboratory diagnosis of acromegaly; 5. Goals of treatment; 6. Trans-sphenoidal surgery with the classical microscopical approach; 7. 3D endoscopic endonasal surgery for pituitary and skull base pathology; 8. Medical treatment of acromegaly; 9. Radiation techniques; 10. Quality of life in patients with acromegaly 11. Future perspectives of diagnosis and treatment of acromegaly Index
Sommario/riassunto	The early recognition of acromegaly can be a major challenge for general healthcare physicians or specialists, as signs and symptoms may be subtle. Available treatment modalities are diverse and include selective pituitary surgery, medical treatment with new effective drugs and radiotherapy. The multidisciplinary nature of successful control of this disease is reflected in this book, consisting of relatively short, easily assimilated chapters.
