Sommario/riassunto	Businesses and the HCI and Interaction Design communities have embraced design and design research. Design research as a field blends methodologies from several disciplines - sociology, engineering, software, philosophy, industrial design, HCI/interaction design -- so designers can learn from past successes and failure and don't have to reinvent the wheel for each new design (whether it's a digital product, a building, an airplane or furniture). They take into account form, function, and, ultimately, users. Many books exist in the research and academic realm for this field, but none
