Crosby, and Gina M. Wingood --

The tyranny of clinical trials: alternative designs for assessing individual and community level impact / Bruce Rapkin with Edison J. Trickett --

Toward the next generation of AIDS interventions with community impact / Willo Pequegnat.

---

Sommario/riassunto

Provides a framework based on an ecological approach for designing and implementing HIV/AIDS intervention with longer-term, community impact. This book explains the basic aspects of this ecological perspective and provides examples of how it works.
