

1. Record Nr.	UNINA9910817881103321
Autore	Robertson Leon S
Titolo	Injury epidemiology : research and control strategies // Leon S. Robertson
Pubbl/distr/stampa	New York, : Oxford University Press, 2007
ISBN	0-19-029534-1 0-19-773771-4 1-281-16380-5 9786611163808 0-19-974836-5 1-4356-1759-2
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (259 p.)
Collana	Oxford scholarship online
Disciplina	614.5/9
Soggetti	Wounds and injuries - United States - Epidemiology Wounds and injuries - Epidemiology - Research - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Formerly CIP. Previously issued in print: 2007.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Injury and the role of epidemiology -- Energy characteristics and control strategies -- Research objectives and usable data -- Injury severity -- Injury statistics -- National injury surveillance -- Local injury surveillance -- The use and abuse of causal analysis -- Research designs and data analysis -- Human factors -- Evaluation of programs to change human factors voluntarily -- Evaluation of laws and regulations directed at individual behavior -- Evaluation of agent, vehicle and environmental modifications -- Evaluation of post-injury treatment and rehabilitation -- Injury epidemiology and economics -- Summation of principles.
Sommario/riassunto	Using a progressive, step-by-step analysis, this text illustrates how to pose research questions and design the best research studies to answer those questions. This third edition includes new case studies.
