Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Occupational and Residential Exposure Assessment for Pesticides; Contents; Contributors; Series Preface; Preface; Acknowledgements; Introduction and Overview; Section One: Exposure Assessment Methodologies; 1 Assessment of Exposure for Pesticide Handlers in Agricultural, Residential and Institutional Environments; 2 Development of Risk-Based Restricted Entry Intervals; 3 Residential Post-Application Pesticide Exposure Monitoring; 4 Residential (Non-Dietary) Post-Application Exposure Assessment; Section Two: Databases and Models; 5 Generic Operator Exposure Databases 6 Predictive Residential ModelsSection Three: Epidemiology; 7 Exposure Assessment for Pesticides in Epidemiological Studies; Section Four: Advances in Data Interpretation; 8 Probabilistic Approaches to Aggregate and Cumulative Risk Assessment; 9 Dermal Absorption of Pesticides; 10 Occupational and Residential Exposure Assessment for Pesticides - Towards a Harmonized Regulatory Approach; Guidelines Bibliography; Glossary; Index
Sommario/riassunto	This timely publication concentrates on the exposure to pesticides by agricultural workers and residential users of pesticides through

inhalation and physical contact. The book discusses more recently discovered risks such as pesticides on indoor carpets and includes new trends in data interpretation. Occupational & Residential Exposure Assessment for Pesticides complements the other title on pesticide exposure in the series - Pesticide Residues in Drinking Water, by Hamilton/Crossley and is a must for all professionals in the Pesticide Industry as well as academics.
