Sommario/riassunto	This history provides the first book-length study and the first county-level analysis of social and political change in the Taihang Base Area during the key years of the War of Resistance to Japan. David S. G. Goodman explores revolution as process, arguing that the CCP was successful because of its management of revolutionary incrementalism. In particular, he examines the roles and interactions of urban

intellectuals, teachers, and peasant small-holders as agents of change. Based on newly available documents and interviews, this meticulously researched work deepens our understanding of the so
