Sommario/riassunto	For centuries scholars have been developing ways of studying the bible, through exegesis, historical critique, literary critique, form criticism, and narrative analysis. During the last half century new theoretical approaches have come to the fore. Psychological Hermeneutics takes as its starting point the text itself, and its context - the dynamics of the human document created, the person(s) who authored the text, the original audience for which it was intended, the subsequent audiences to which it spoke, and the factors that were at play behind, in, and in front of the text.
