of growth -- Safeguarding the health sector in times of macroeconomic instability: policy lessons from Zimbabwe -- Political will and adaptive strategies: keys to safeguarding health in diverse cases with varied reforms.

Sommario/riassunto

Safeguarding the Health Sector in Times of Macroeconomic Instability presents the results of an international initiative to document the effects of how health systems in the developing world have responded to macroeconomic austerity and adjustment measures. Are these systems flexible and resilient to changes or are they rigid? In which circumstances and under which conditions do health systems respond favourably or unfavourably? What are the success stories? Country studies from Burkina Faso, Zimbabwe, India, Thailand, Mexico, and Colombia discuss lessons learned and identify policy measures f
